Color You Can Count On

**Ultrablend TruBlend™ Sample Program with Full Spectrum Technology™ (FST™)**

Only with Ultrablend TruBlend colorant dispensers powered by *Full Spectrum Technology (FST)* are you, the paint dealer, able to accurately dispense amounts as small as 1/1536th of a fl. oz. (or 1/48th of a shot) with less than a 1% error. This precision means that your color will be perfect every time in quantities ranging from a 4-oz sample jar to a 5-gallon pail **ALL WITH ONE MACHINE!**

**Full Spectrum Technology (FST)**

*FST* allows you to offer tinted samples in **ALL COLORS** without investing in dedicated equipment, additional inventory, special colorants or limited sample displays.

**Just Another Can Size**

Ultrablend TruBlend dispensers with *FST* treat sample jars just like any other can size. With the power and accuracy of *FST* you can offer your complete color palette, competitors colors, and even color matching in sample sizes.

**Speed**

This amazing accuracy does not come at the expense of speed. Ultrablend TruBlend dispensers boast the fastest can-to-can dispense speeds in the industry. Just imagine, tinting 100 gallons for a big contractor job in record time, followed by a perfect off white in a sample size for a DIYer.

**Why Other On-Demand Sample Programs Fail**

Simply because their equipment is not capable of dispensing minute amounts of colorant accurately. When deciding how to launch a successful point-of-sale sample program, a paint store should insist on the highest level of accuracy (+/- 1%) without sacrificing production speed. And this is exactly what Ultrablend *FST* provides.

**Proof**

Ultrablend successfully launched several sample programs with *FST*. We are so confident that our color precision is unmatched, we offer a risk-free 30-day trial of any of our Ultrablend TruBlend dispensers with *FST*.

**Why Wait?**

We can help you get started today. We can even supply you with filled or unfilled sample jars to help get your sample program started at a very low cost.

**To arrange your free trial contact us today at 800.680.3344 or email us [sales@ultrablend.com](mailto:sales@ultrablend.com).**

All Ultrablend products are proudly made in the USA
